Litigation Funding is a new and exciting asset class, treating litigation claims as assets that can be financed.

It is a unique asset class because returns on investment are not related to the amount invested, rather returns are driven by the settlement amount or damages awarded by a Court.

Successful investment depends ultimately on selecting meritorious claims.

JustKapital Company Overview

JustKapital is an emerging litigation funding business which aims to position itself as a major litigation funder in Australia and New Zealand.

Highly experienced team which can assess litigation cases and provide a view on the probability of success.

Business model:
- Grow a portfolio of cases organically and via acquisition,
- Build significant capital reserves,
- Use cash reserves to fund litigation,
- Achieve successful outcomes for claimants.

JustKapital’s competitive advantage lies in its case review and selection process and taking a private equity approach to funding.

Types of claims to be pursued

- Class actions
- Breaches of contract
- Breaches of company and securities law
- IP infringement
- Liquidators’ claims & other general commercial claims, and
- Business to business claims
JUSTKAPITAL OFFERS LITIGATION FUNDING TO PLAINTIFFS (CORPORATE AND INDIVIDUALS) WITH A **MERITORIOUS** CLAIM AGAINST DEFENDANTS WHO HAVE THE **FINANCIAL CAPACITY** TO SATISFY AN ADVERSE JUDGMENT

Focus on document-driven litigation to establish merits of claims. Documents clearly evidence the claim has merit. Prefer not to rely on oral evidence so case outcome is more certain.

JustKapital reviews cases in detail before deciding whether to provide funding based on;

- Claim size
- Likelihood of success, and
- Defendant’s assessed capacity to pay

JustKapital earns ~25–50% of claim value by way of judgment or settlement, in addition to recovery of the funded costs.

In return JustKapital funds the case, manages the case, and indemnifies clients against adverse legal costs.

An active and disciplined “investment returns” driven approach is taken to funded cases.

If a claim is unsuccessful no amount is received by JustKapital and it bears the cost of the litigation and any adverse cost orders.

AUSTRALIAN LITIGATION FUNDING MARKET & COMPETITORS

Australia is one of the most active jurisdictions for class actions globally, and NZ is also becoming a significant player in the litigation funding market.

Globally, there are significant funds invested in litigation funding, and based on the amount of claims being assessed by legal firms the opportunity for JustKapital is substantial.
After the US, Australia is the most active jurisdiction for class actions in the world.

In the US lawyers charge contingency fees on litigation and as a result legal firms dominate class actions.

In Australia legal firms can’t charge contingency fees which provides opportunity for third party litigation funders.

Specialist litigation firms such as Maurice Blackburn, Shine Lawyers, ACA Lawyers and Slater & Gordon have expertise working on such cases.

The opportunity for JustKapital is substantial based on the amount of claims being assessed by legal firms.

In Australia in 2014 more than $1bn in class actions were settled.

Australian lawyers are prohibited from charging contingency fees or damages based fees due to ethical concerns that it creates perverse incentives for lawyers.

Litigation funders have filled the gap, charging damages based fees and providing plaintiffs with the financial resources to bring a claim.

The legality of third party funding agreements was upheld in the High Court of Australia in *Campbells Cash and Carry v Fostif* (2006).
